SEASPACE RECOMMENDED FOR CONTINUED ISO 9001:2000 CERTIFICATION

Poway, California, August 22nd, 2008-SeaSpace Corporation announces that it has completed its most recent ISO 9001:2000 audit successfully, and has been recommended by the registrar, NSF-ISR Ltd., for continued certification.

The rigorous process of acquiring this certification demonstrates SeaSpace Corporation's commitment to providing its customers with the highest quality products and services, with results validated by an ISO accredited registrar. The ISO 9001 inspection process includes 23 different elements, from product design and development to production, inspection and servicing.

This is SeaSpace's fourth year holding ISO 9001:2000 certification. "SeaSpace is a company with good people, good product, and committed to customer focus and continual improvement," reports Harry Lane, Lead Auditor, NSF-ISR, Ltd.

About SeaSpace Corporation:

SeaSpace Corporation empowers people to improve the safety, security and enjoyment of our global environment. SeaSpace manufactures TeraScan® hardware and software products that provide customers with timely and accurate satellite-derived weather and environmental information. These systems are in operation at more than 450 customer sites in over 30 countries.
