SEASPACE CORPORATION AWARDED CONTRACT TO SUPPLY AXYOM 50 AND MODIS CLUSTER SYSTEMS TO CARLO GAVAZZI SPACE

Poway, California, April 24th, 2008-SeaSpace Corporation announces the award of a 5.0 meter AXYOM Model 50 antenna and MODIS cluster processing system to Carlo Gavazzi Space (CGS) of Italy. CGS is acknowledged as one of the leading medium size companies in Europe for space systems integration.

The SeaSpace AXYOM Model 50 is 3-axis tracking antenna that provides a very high performance, and economical solution, for Low Earth Orbit satellite tracking applications. The MODIS Cluster system will provide CGS with the ability to process 3 MODIS passes to level 2 simultaneously in under 15 minutes. The system is scheduled for delivery and installation in September, 2008.

"This is a great opportunity to deliver our first AXYOM system to the European market," comments Oscar Martinez, the COO of SeaSpace Corporation.

About SeaSpace Corporation:

SeaSpace Corporation empowers people to improve the safety, security and enjoyment of our global environment. SeaSpace manufactures TeraScan® hardware and software products that provide customers with timely and accurate satellite-derived weather and environmental information. These systems are in operation at more than 450 customer sites in over 30 countries.
